

# BTX1 PRO S

ADVANCED INTERCOM SYSTEM

Bluetooth

INSTALLATION

MIDLAND®

## BTX1 PRO S INSTALLATION

Place the **BTX1 PRO S** unit on the left side of your helmet using the adhesive mount.

Place both speakers as much as possible close and centered to your ears. In case of need, use the provided spacers to better fit the speakers closer to your ears.

**Closed helmets:** place the wired microphone in front of your mouth.

**Jet helmets:** fix the boom on the left side and keep the sponge as closely as possible to your mouth.

The **BTX1 PRO S** can be easily fitted onto the helmet by sliding it downwards into the slot of the adhesive Mount.

To detach **BTX1 PRO S**, simply press the fixing clip (A) and push the unit upwards.

## INSTALLAZIONE BTX1 PRO S

Fissate il dispositivo sul lato sinistro all'esterno del casco utilizzando il supporto biadesivo.

Fissare entrambi gli altoparlanti nell'apposito alloggiamento. Tenete lo speaker centrato e il più vicino possibile alle vostre orecchie. Se necessario, per far aderire meglio gli speaker alle orecchie, potete utilizzare i distanziatori in dotazione.

**Microfono a filo per i caschi integrali:** fissatelo al casco davanti alla bocca.

**Microfono a braccetto per caschi jet:** fissatelo sul lato sinistro, sotto l'imbottitura in modo che sporga fino alla bocca.

Il dispositivo si fissa al supporto facendolo scorrere verso il basso.

Per sganciare il **BTX1 PRO S**: premere sulla clip di aggancio (A) e spingere il dispositivo verso l'alto.

## BTX1 PRO S INSTALLATION

Befestigen Sie die externen Tasten mit dem 3M-Klebeband an der linken Seite Ihres Helms.

Platzieren Sie beide Lautsprecher in der Ohransparung des Helms. Befestigen Sie den Lautsprecher so dicht und mittig an Ihrem Ohr, wie möglich. Falls erforderlich, können Sie die mitgelieferten Abstandshalter verwenden, damit die Lautsprecher besser an Ihren Ohren haften.

**Geschlossene Helme:** befestigen Sie den Mikrofonschaumstoff so dicht wie möglich am Mund.  
**Offene Helme:** befestigen Sie den Schwanenhals an der linken Seite und halten Sie den Schaumstoff so dicht wie möglich am Mund.

Das **BTX1 PRO S** wird einfach am Helm befestigt, indem es von oben auf die Schieberhalterung geschoben wird.

Um das Gerät wieder abzunehmen, drücken Sie den Clip (A) und schieben Sie die Einheit nach oben.

## INSTALACIÓN DE BTX1 PRO S

Coloque el **BTX1 PRO S** en el lado izquierdo del casco usando el soporte biadhesivo.

Coloque los dos altavoces en el bolsillo del oído de su casco. Coloque ambos altavoces lo más cerca posible y centrados en sus oídos. Si es necesario, puede usar los separadores suministrados para ajustar mejor los altavoces a las orejas.

**Cascos integrales:** coloque el micrófono con cable justo en frente de su boca.

**Cascos modulares:** fije la varilla en el lado izquierdo y mantenga la esponja lo más cerca posible de su boca.

**BTX1 PRO S** puede ser fijado al casco fácilmente deslizando hacia abajo de manera que encaje en la ranura del soporte adhesivo.

Para soltar **BTX1 PRO S**, simplemente presione el clip de fijación (A) y empuje la unidad hacia arriba.

## INSTALLATION DU BTX1 PRO S

Placez l'unité **BTX1 PRO S** sur le côté gauche de votre casque à l'aide du support adhésif.

Placez les deux enceintes dans la poche auriculaire de votre casque. Placez les deux enceintes autant que possible près et centré à vos oreilles. Si nécessaire, vous pouvez utiliser les espaceurs fournis pour adapter les haut-parleurs plus près de vos oreilles.

**Casques intégraux:** placez le microphone filaire devant votre bouche à l'aide du tampon Velcro adhésif.

**Casques ouverts:** fixez la tige du côté gauche et gardez le micro aussi près que possible de la bouche.

Le **BTX1 PRO S** peut être facilement monté sur le casque en le faisant glisser vers le bas afin qu'il s'insère dans la fente du support adhésif.

Pour détacher le **BTX1 PRO S**, appuyez simplement sur le clip de fixation (A) et poussez l'appareil vers le haut.
